

Phase 2 Project

Leah Pope

Flatiron Cohort: 81720-ONL-DS-FT

10/16/2020

The Business Problem

Persona - Buyers looking for scenic homes in King County, WA

Needs - "We want to know

1

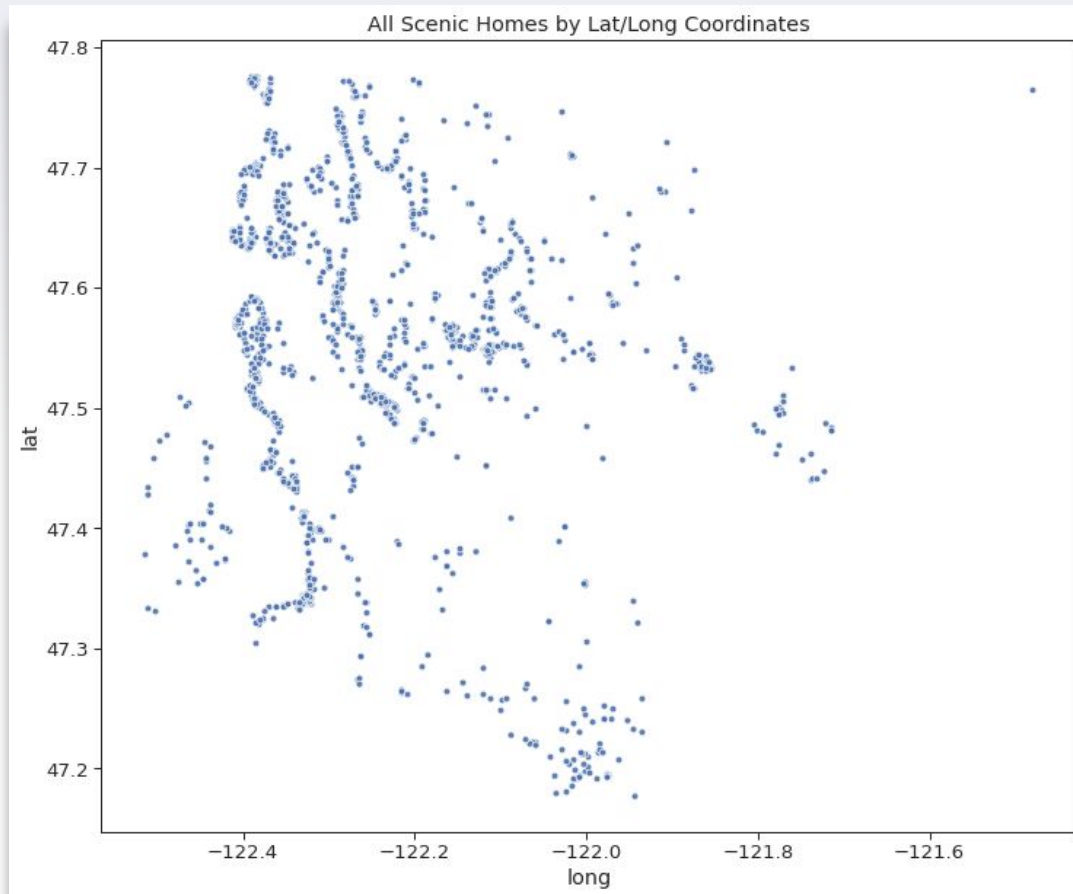

Locating Scenic Homes

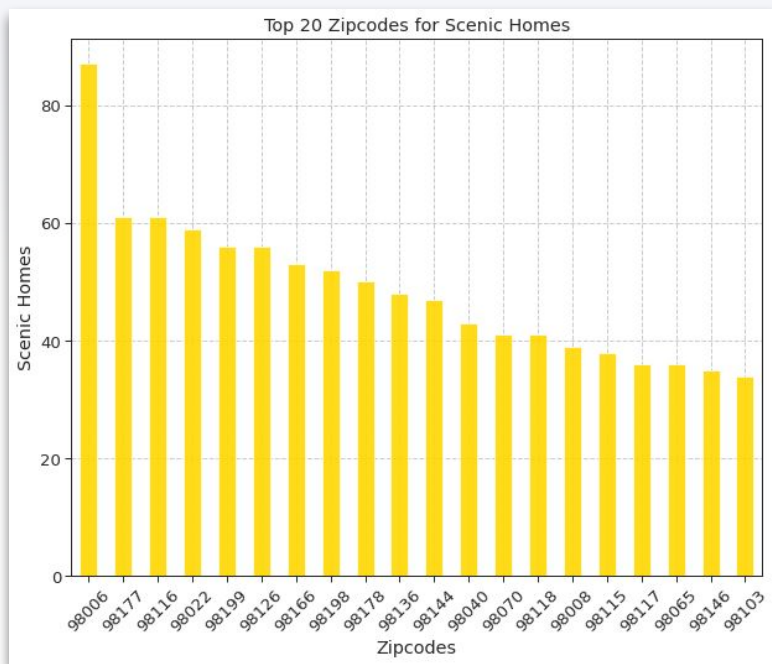

Where are scenic homes located?

“Scenic” means waterfront and/or a higher than average view score.

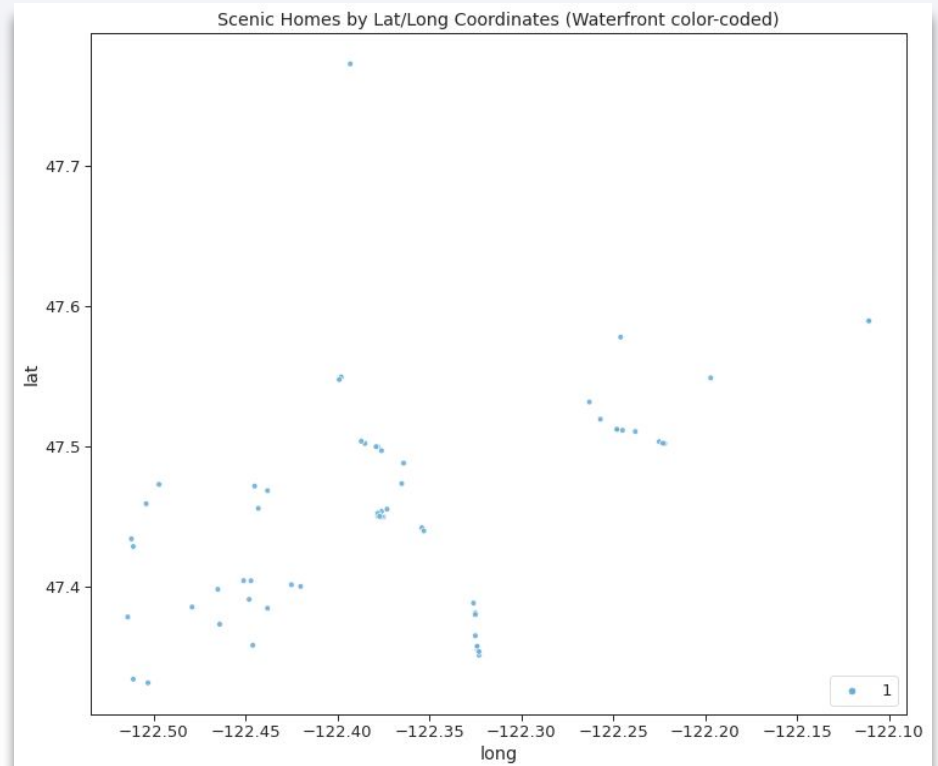

Scenic homes are spread throughout King County.
Narrow the field.

Narrow to Top 20 Zipcodes

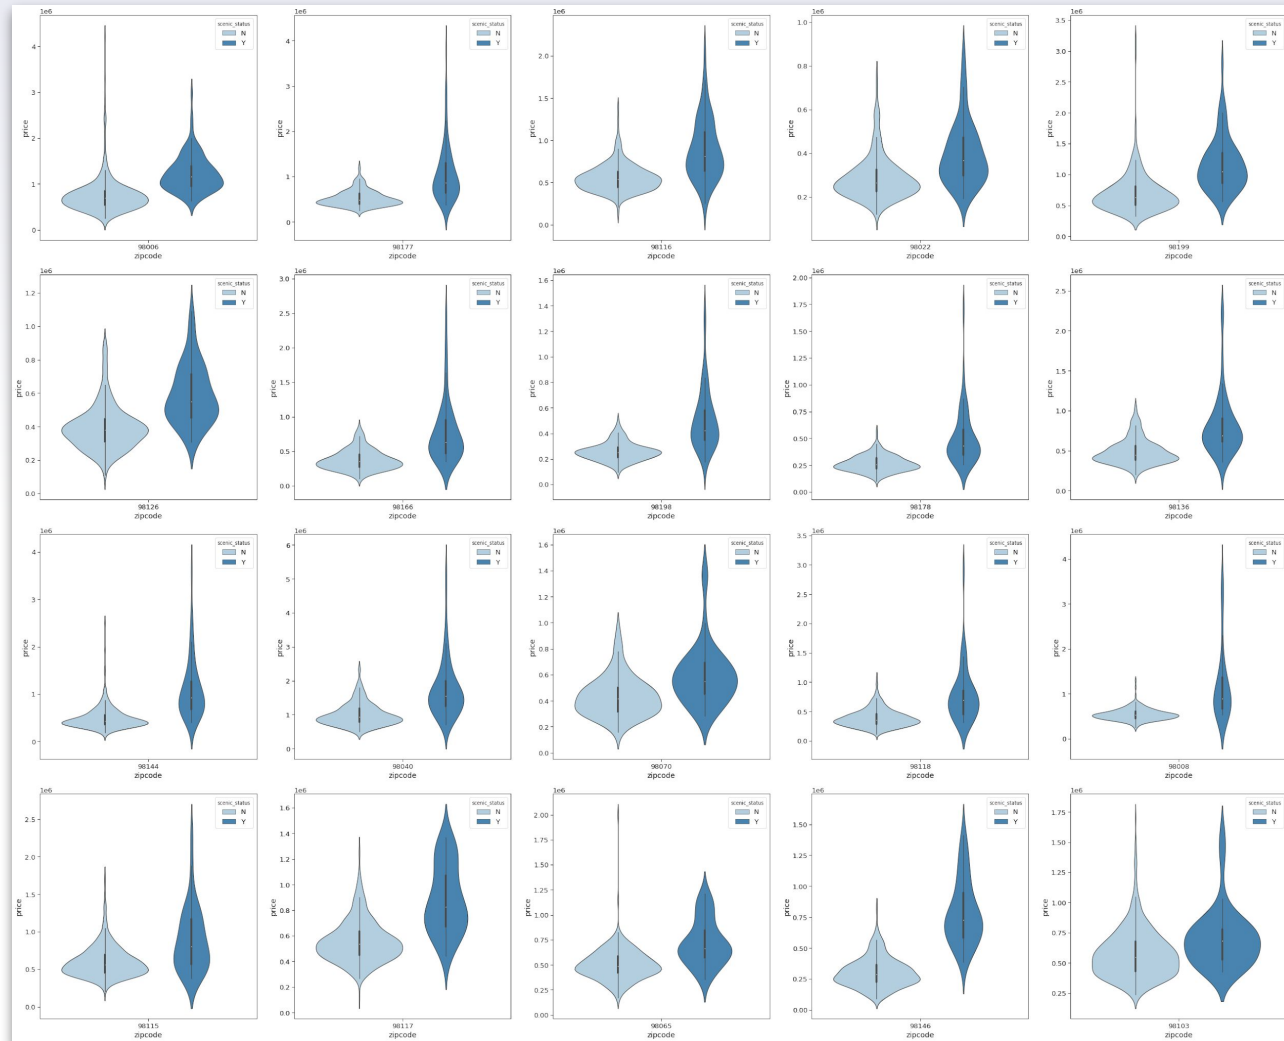

View vs Waterfront

Price Diff?

YES

Scenic home prices tend to be higher than regular home prices.

2

Predicting Home Prices

Price Prediction

- ▶ Multivariate Linear Regression model with 20 features
- ▶ *Grade* features were very influential
 - ▶ 12, 11 & 10 (Above Average Grade) had the most *positive* correlation to Price
 - ▶ 4, 5, 6 & 7 had the most *negative* correlation to Price
 - ▶ Grades <6 aren't up to Building Code
- ▶ *View* features were also influential
 - ▶ All 4 View Rankings had *positive* correlation to Price
 - ▶ Order of influence: 4, 1, 3, then 2

THANKS!

Appendix

Future Work

New Persona: King County government officials

Improvement Trends

What percentage of homes are being renovated?

What types of homes (large/small/historic/older) are being renovated?

Tax Assessment Insights

Are homes that are larger than neighboring homes getting a 'tax break' in being compared to smaller properties?

Home Quality Insights

Are there differences home quality between zip codes/county subregions?

► Price Prediction: Subregions

22 Subregions

Region titles indicate King County has a mix of Urban and Rural areas.

Model per Subregion

Create models for each Subregion instead of a single model trying to predict across a wide range of residential areas.

Credits

Special thanks to all the people who helped me during this project!

- ▶ Cohort Members, Instructor: Rafael Carrasco, Ed Coach: Talia Salzberg Horowitz
- ▶ Colleagues, Friends, and Family for moral support and encouragement!

► Presentation Credits

Special thanks to all the people who made and released these awesome resources for free:

- ▶ Presentation template by [SlidesCarnival](#)
- ▶ Illustrations by [Sergei Tikhonov](#)
- ▶ Photographs by [Unsplash](#)

THANK YOU!
